Election/Restrictions

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

- a. Group I, claim(s) 16 and 17, drawn to a hybridoma cell line having deposit number DSM ACC 2365 and monoclonal antibody produced therefrom.
- b. Group II, claim(s) 18-21, drawn to a monoclonal antibody that binds to islet cell antigen IA-2 and method for making the same.
- c. Group III, claim(s) 22-23, drawn to a method for detecting antibody that binds to islet cell antigen IA-2 or IA-2ic.
- d. Group IV, claim(s) 24-25, drawn to a method for isolating an islet cell antigen IA-2.
- e. Group V, claim(s) 26-27, drawn to a method for producing an anti-idiotypic antibody.

2. The inventions listed as Groups I and II-V do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons:

The hybridoma cell line and monoclonal antibody of Group I is structurally, chemically, biologically and physiologically different from the monoclonal antibody of Group II, and they lack the same or corresponding special technical feature.

The methods of Groups III-V are independent from the monoclonal antibodies of Groups I and II because they are not disclosed as being able to detect or produce the monoclonal antibodies of Groups I and II.

The method of Groups III, IV and V are unrelated because they have different functions, different method step and different results.

3. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Art Unit: 1641

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

4. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Bao-Thuy L. Nguyen whose telephone number is (703) 308-4243. The examiner can normally be reached on Tuesday - Thursday from 9:00 - 4:30.
